Caterpillar

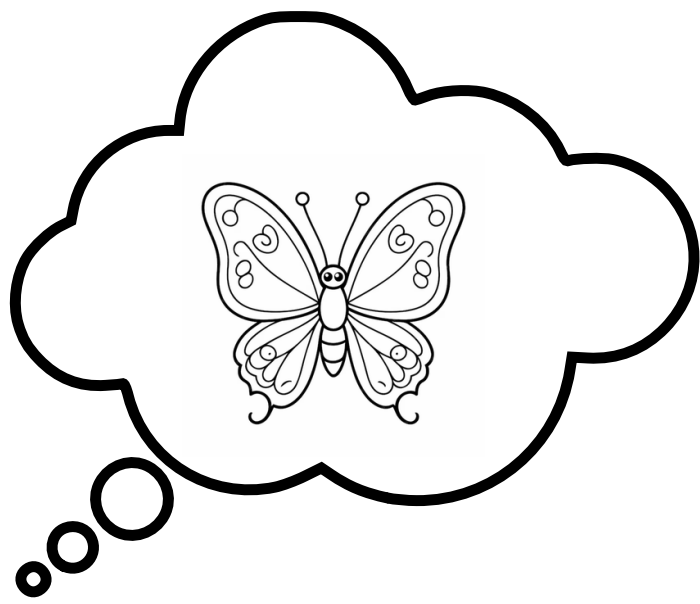

Dreams

mini book

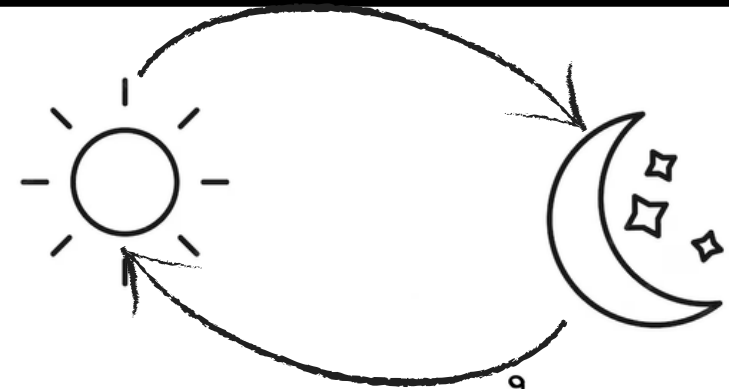

by _____

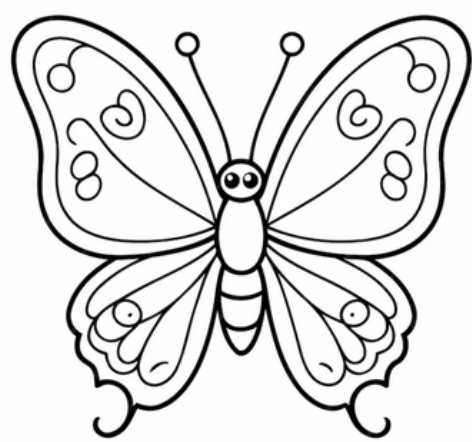

By night, two young caterpillars were dreaming.

One day they would become butterflies!

The time passed and they waited patiently.

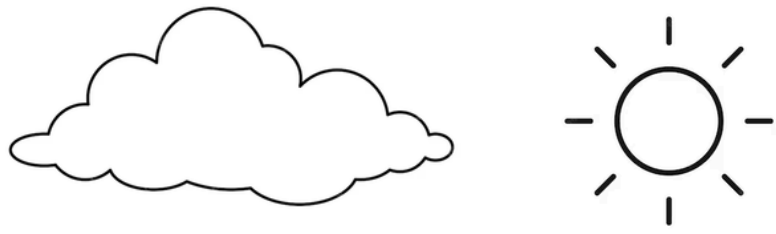

One day one of the two woke up: she was a butterfly!

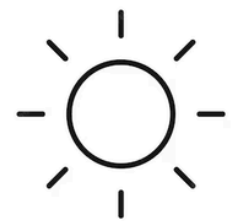

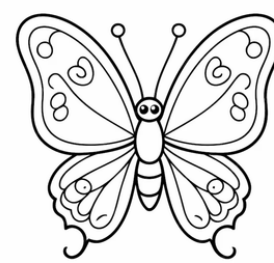

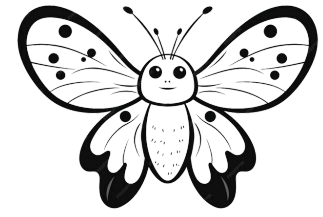

But she was alone...

So, she started to
look for her friend.

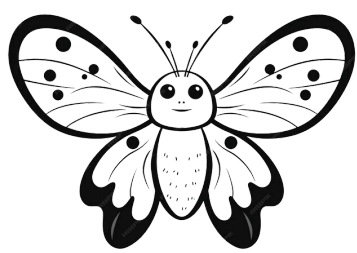

Where dark meets
day, they met.

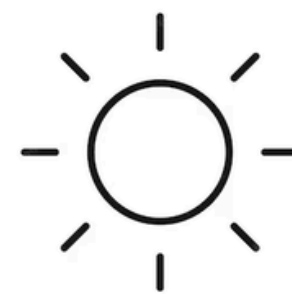

She was a moth!

She was not a butterfly
but she was beautiful!

We can't all be
butterflies.

The world needs moths
just like it needs
the moon.
